DETAILED ACTION

Information Disclosure Statement

1. The examiner has considered the information disclosure statement (IDS) submitted on 2/5/2001.

Specification

2. The disclosure is objected to because of the following informalities: On page 1, lines 5 and 6 refer to claims 1 and 5. The specification should not reference claims, in that claim numbers can change.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 9-12 rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted step is: A result of the check in the second step of claims 9 and 11. Seemingly, there is no result to this check.

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Art Unit: 2134

Claims 9-12 are rejected under 35 U.S.C. 101 because the disclosed invention is inoperative and therefore lacks utility. Seemingly, there is no result to the check in the second step of claims 9 and 11; therefor the claimed invention does yield any result.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 9-12, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Blakley et al., European Patent Application number 773489.

With regard to claims 9 and 11, Blakley discloses a method for approving a user password (page 10 line 14-page 11 line 18) including adding a data item to the user profile (page 10 lines 24-26) and checking whether a number of characters belonging to a subset are included in the new password (page 10 lines 20-21).

With regard to claims 10 and 12, Blakley discloses indicating a minimum number of the required characters (page 10 line 19).
